

TECHNICAL DATA ELMOTO KICK

Battery system	 
Vehicle class:	Personal Light Electric Vehicles with handlebar (without stanchion)
Top speed:	20 km/h
Motor type:	Max. 450 W Drive Motor Nominal output: 350 W gearless, brushless wheel hub motor
Realistic range*:	up to 20 km
Battery type:	2 Lithium Ion batteries (Einhell Power X-Change): 18V/5.2Ah
Battery charger:	Off-board twin charger 21V / 3A
Charging time:	approx. 2 hrs
Display:	Digital Tube Display (speed, battery status, daily and total distance)
Lights:	Front and Rear full LED lights
Tyres:	10 Inch inflatable tyres (appr. 25 cm) Tyre Pressure: 2.5 bar
Braking system:	Hybrid disc brakes (front and rear)
Frame:	A6061 Aluminium Alloy, with folding mechanism
Vehicle weight:	ca. 19 kg (with two batteries)
Max payload:	120 kg
Dimensions:	1200 x 585 x 1220 mm (L x W x H) Wheelbase 910 mm
IP Rate:	IPX5
Additional features:	Immobiliser, Street legal, Keyless driving, Colours: red, blue, black

* Range can vary depending on weather conditions, topography, individual way of driving, as well as the weight and size of the driver.
